WATER SAVING TIPS

 **PRINTABLE GUIDE**

① MEASURE YOUR WATER USAGE

Track your daily & monthly usage.

 *You can't reduce what you don't measure.*

② FIX LEAKS IMMEDIATELY

Inspect for dripping taps & toilets.

 *Small leaks waste thousands of litres of water.*

③ IMPROVE WATER USAGE HABITS

Use water wisely in everyday tasks.

 *Turn off taps when, shorten showers, empty shower water into gardens.*

④ OPTIMISE OUTDOOR WATER USE

Manage garden and irrigation systems efficiently.

 *Water early or late. Fix leaky connections as best possible.*

⑤ USE SMART WATER METERING

Track your usage in real time.

 *Smart meters help households monitor consumption in real-time, efficiently.*
